The above child is currently with our agency and in line with the 1933 Children & Young persons Act (amended in 1968), their local authority requires a declaration from the GP or other health professional to confirm that they are in good health and that they have no condition that would prevent them from doing modeling work, before they can issue them with a performers license.

This declaration would in no way be in breach of any patient / doctor confidentiality agreement, as we have been given permission to ask for this. The parent has requested that we send this and will call your surgery to arrange collection of this letter.
